It may be mecessary to wait for the official returns before the result can be nositively determined. AT MR. HENDRICKS' HOME.

INDIANAPOLIS, Ind., Nov. 6.—Mr. Hendricks was found at bonne last night in conversation with a dozen or more Friends, indies and genthence. He was asked his view of the situation. "I have no special information," Mr. Handricks replied, "from New York. In this state the returns reported by Associated Pross and those received by the Democratic State Committee are which different. Relying upon the reports at the Democratic committee rooms, it seems that we have carried Indiana. I believe that the Democratic reports are relable? As to the result I do not know enough to enable me to say anything positive. Mr. Gorman has telegraphed Jr. McDonnid that we have certainly carried New York, and if that is true of course it settles the matter."

Ghispaw merchants are much clated at the success of Mr. Cleveland.

LONDON, Nov. 6.—The Daily News, in an editorial upon the latest advices from America that Haine has 10,000 majority in New York State, says that this result must be a surprise to his friends as much as in his opponents. It says: "Blaine has fought his battle with an energy and spirit that even his opponents must admire. Gladstone's recent clores in Scotland were almost insignificant compared with the efforts of Haine. Novertheless, the gradual recovery of the Democratic party from the great depression of 188s encourages Democrats and alternas their opponents. The present struggle is simply a question of personal preference. The largeness of the vote in the healthful sign of the interest Americans take in thoir politics."

PARIS, Nov. 6.—La France says that Mr. Cleveland's election is a triumph of integrity over corruption, and a victory for honesty and liberty.
The Standard speaks of the election of Cleveland as a welcome surprise. It remarks that it is absurd for Mr. Blaine's supporters to expect any one to helieve their figures on the result. Had the Republicans selected a candidate of decent reputation the result would perhaps have been different.
The Dally News thicks there is little doubt that Mr. Blaine has been elected. In a review of his career the News declares that even Mr. Gladstone's energy sinks into significance when compared with that of Mr. Blaine. GOVERNORS ELECTED.

THE NEXT SENATE.

WASHINGTON, NOV. 6.—In the present United States Senate there are 37 Republicans, 36 Democrats and 2 Readjusters who vote with the Republicans. There is one vacancy, caused by the death of Senator Anthony, of Rhode Island, whose successor will certainly be a Republican. On March 3, 1885, the terms of 11 Republicans and 14 Democrats expire. Six of their successors have already been elected, with no changes in their politics. The following table will show the status of the Semate. Anthony's successor and the two Readjusters being included in the Republican column:

After making a few more hauls the company will move all their nets and apparatus to Savannah, Ga., as at this season of the year the sea bass go South and the porpoises follow after them. They seem to relish bass as one of their main articles of dies. A good porpoise is worth from \$20 to 330. There is not much danger attached to out we sighted a school of porpoises coming straight toward it, and we expected a good haul. When the leader, who was away shead of the rest sighted it he made a jump clear out of the water and gave the alarm to the others, who all scooted out to sea, and we didn't catch one. Another once thing about porpoises is that they will live from four to seven days out of water, and yet if they get entangled in the net they'll irown in five minutes.

SAN FRANCISCO, Cal., Nov. 6.—Partial returns from theirty-nime counties of California, including San Francisco, give Manne 23,360; Cleveland. 13,674. It is not expected this increase will be maintained, but it is conceded the Republicans curry the State by 6,003.

The Republicans' victory goes still further. They seem, according to the latest returns received, to have wrested the six Congressmen from their opponents. What is equally important is that they have elected a sufficient number of legislators to give them a majority on the joint ballot, giving the State another Republican United States Senator. The gains of many local fidents have been large. The State has literally jumped from Democracy to Republicanism. Protection has been from the course. Origing gives Badne a majority of 1,600.

Returns from the interior of the state come in very slowly. The Germans do not appear to have given the Democrats as much assistance as was at first supposed, though gains in localities populated by that nationality have been made. In Chicago the Prich scratched Cleveland quite heavily. In sixty-nine counties, including Cook, Blaine has a net impority of 22,348, About one-half the counties yet to hear from are Democratic, and the actual majority in the State will not vary much from the figure given above. Oglesby's plurality will fall short of that, for, while Blaine carries Cook County by nearly 2,008. Harrison carries it by 5,001—making a difference of 12,009. Harrison also runs considerably ahead in the State.
